

## Course Overview

The Astutis Asbestos Awareness course is a half-day comprehensive training program designed to equip individuals with the knowledge and skills to identify, assess, and manage asbestos risks effectively.

Learners will gain a deep understanding of asbestos hazards, regulations, and best practices to promote workplace safety.

## Who is the course for?

This course is ideal for individuals working in industries where asbestos exposure may occur. Making it suitable for workers, managers, contractors and anyone who requires essential training to ensure they understand the first step in developing compliance and ensuring safety.

## Benefits for Employers

- ▶ Have confidence that your staff can accurately and successfully identify, assess, and manage asbestos risks effectively.
- ▶ Reduce your organisation liability by ensuring compliance with Regulation 10 of the Control of Asbestos Regulations 2012.
- ▶ Training staff on safe working practices will enhance workplace safety and minimise the risk of asbestos exposure. Protecting employee health and well-being.
- ▶ Improve reputation as a responsible employer committed to safety and compliance.
- ▶ According to the latest Asbestos statistics published Health and Safety Executive (HSE), Asbestos still kills around 5000 workers each year.

## Course Key Facts

**Duration:** 3 hours

### Learning methods

Virtual Classroom and Onsite In-Company
