

Introduction

Unlock a world of opportunities with the IEMA Foundation Certificate in Environmental Management. This Level 3 course offers an essential entry point for individuals seeking to make a difference in sustainability and environmental management.

As businesses face growing global environmental challenges, the course equips you with the knowledge and management skills to help your organisation adapt and thrive in a rapidly changing world. Whether you are just starting or looking to enhance your role in sustainability, the IEMA Foundation Certificate is the perfect way in.

Who is the Course for?

The IEMA Foundation Certificate is an ideal entry-level qualification, for anyone looking to get involved and make an impact in the field of environmental management and sustainability.

The course is ideal if you are involved in:

- ▶ Collecting and collating data in an environmental or sustainability context.
- ▶ Completing routine checks on legislative measures or pollution prevention measures.
- ▶ Providing routine advice and information.
- ▶ Undertaking a supportive role in small-scale projects and programmes.

No prior knowledge is necessary—the IEMA Foundation Certificate is designed for beginners or those in related roles who want to deepen their understanding of environmental best practices and make a tangible impact within their organisation with recognised environmental systems, like ISO 14001.

Course Key Facts

Your gateway to Associate IEMA (AIEMA) membership.
