

Introduction

Exposure to hazardous substances is a risk in many workplaces, but it's one that can be effectively managed with the right knowledge. Our COSHH Awareness Training is designed to provide employees and managers with a clear understanding of the Control of Substances Hazardous to Health (COSHH) Regulations and how to apply them in real-world settings.

Who is the Course For?

The COSHH Awareness Training course is designed for anyone who may encounter hazardous substances in their workplace, including employees, supervisors, managers, facilities and maintenance teams, and any health and safety representative looking to enhance their knowledge of COSHH to better support their role.

This course is suitable for individuals with little or no prior knowledge of COSHH, as well as those looking to refresh their understanding of the regulations and best practices. Ideal for any industry where exposure to hazardous substances is possible, this course ensures your team is informed, prepared, and compliant.

Benefits for Employers

- ▶ Ensures Legal Compliance
- ▶ Enhances Workplace Safety
- ▶ Reduces Costs
- ▶ Improves Productivity
- ▶ Demonstrates a Commitment to Employee Welfare
- ▶ Supports Risk Management
- ▶ Encourages Proactive Health and Safety Culture

Benefits for Learners

This course equips learners with the skills to identify hazardous substances, assess risks, and implement controls to ensure a safe and compliant workplace. By completing this training, learners will gain confidence in managing chemical safety, reducing workplace incidents, and contributing to a healthier environment for all.

Course Key Facts

Duration: 1 day

Course Content:

- ▶ Identifying hazardous substances
- ▶ Assessing health risks
- ▶ Controlling health risks
- ▶ Producing a written COSHH assessment

Formative Assessment:

An ongoing evaluation process used during learning to monitor learner progress and understanding.

Benefits of Virtual and Classroom Learning

Whether you are looking for on-site Classroom-based courses at a location of your choice or a virtual classroom course on a date of your choice, Astutis offer a service to match your exact requirements.

On-site Classroom training is best for: Learners who prefer a structured, tutor-led approach in a traditional classroom environment.

Virtual Classroom training is best for learners looking to reap both classroom and virtual benefits from one course.

Features of a Virtual Course

One of the best perks of the Virtual Classroom is its ease. It is a vibrant virtual village of health and safety learners like you. In our Virtual Classroom, you will learn and explore the same techniques as face-to-face learning, with the added safety of virtual education.

The Virtual Classroom course includes:

- ▶ Live, daily tuition from your expert health and safety tutor.
- ▶ Delivery via the latest professional Webinar software.
- ▶ Comprehensive PDF course materials and workbooks designed by qualified learning designers.
- ▶ Collaboration with other learners in our virtual break-out rooms.
- ▶ Access to our exclusive community and social support groups for help and networking opportunities with other learners.
- ▶ Support every step of the way from our customer support and advisory team.
